Limited Review Report on Consolidated Interim Financial Statements To The Board of Directors of Ezz Steel Company

Introduction

We have performed a limited review on the accompanying consolidated statement of financial position of Ezz Steel Company "an Egyptian joint stock company" as of March 31, 2018 and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the three months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our limited review.

Scope of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements no. 2410, "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not present fairly, in all material respects, the consolidated financial position of the Company as of March 31, 2018 and of its consolidated financial performance and its consolidated cash flows for the three months then ended in accordance with Egyptian Accounting Standards.

Emphasis of matters

Without qualifying our conclusion, we draw attention to the following:

- 1- As explained in note no. (34-3-1) of the notes to the consolidated interim financial statements, the tax claims due from Al Ezz El Dekheila for Steel – Alexandria Company (subsidiary company) – amounted to LE 219 million according to the forms received from the Tax Authority on February 17, 2011 in addition to delay penalties concerning the tax imposed on the flat steel project which has previously enjoyed a tax exemption for the years 2000 – 2004.

The subsidiary's management opinion is that the tax inspection was previously made for the company pertaining to these years, and an agreement was reached in the Internal Committee, while the disputed point pertaining to the cancellation of the development duty on the exempted movable tax base was referred to the Appeal Committee which issued a resolution on June 12, 2010 to the effect of cancelling the development duty imposed on the exempted movable tax base, while the other tax bases shall remain exempted for the disputed years. The due tax was paid in full as per the resolution of the Internal Committee; accordingly the dispute amicably came to an end and became final and decisive.

The subsidiary's management and its legal advisor are of the opinion that the company's tax position is stable as the resolution of the Appeal Committee supported the company and the company's position became indisputable from the legal point of view. Subsequently, the Tax Authority cannot dispute with the company about these years once again. The company filed a lawsuit of discharge from any indebtedness before the court under no. 405 of the year 2011.

Al Ezz El Dekheila for Steel - Alexandria (EZDK) Company reached an agreement with the Tax Authority to cancel the administrative attachment imposed on the company as a result of the above mentioned dispute. The paid amounts are LE 254.2 Million, including delay interest amounted to LE 35 Million.

The subsidiary company is of the opinion that this procedure shall not change the legal & tax position of the company as it reserves its right to reimburse what has been paid immediately upon the issuance of a court ruling pertaining to lawsuit No.405 of 2011. Currently, it is difficult in the meantime to determine the final outcome that may arise from such lawsuit until a final ruling is issued by the legal bodies in this regard.

- 2- As explained in note no. (17) and note no. (37-2) of the notes to the consolidated interim financial statements, there is a dispute raised between Al Ezz El Dekheila for Steel – Alexandria company (subsidiary) and the Sales Tax Authority regarding the amount of the additional tax on materials stevedoring category amounting to LE 127.5 Million till June 28, 2012. On October 3, 2012, the company paid the principal tax amounting to LE 104 million along with its right to maintain a reservation on the settlement until the Sales Tax Authority ceases all the actions taken against Alexandria Port Authority which in its turn shall cease all the actions taken against the subsidiary including the lift of attachment on the subsidiary's balances at the various banks.

However, the company's management paid an amount of LE 127.5 Million which represents the additional tax claimed, along with its right to maintain a reservation on the settlement, Accordingly, Alexandria Port Authority notified the banks to lift the administrative attachment imposed on the Company's balances at the said banks in favor of the Port Authority.

Based on the opinion of its tax advisor, the subsidiary company's management is of the opinion that Alexandria Port Authority is not entitled to claim the Company to pay sales tax in return for usufruct of the equipment of mining ores dock related to the handling of ores in El - Dekheila Port, the occupation of the yards allocated for this purpose and carrying out the works of operation and maintenance necessary for such equipment due to the fact that they are not subjected to sales tax. Furthermore, the payment of such amount or amounts by the company to Alexandria Port Authority, either at the present time or in the future, as a tax in return for the same service, does not mean its approval of subjecting the service to taxation along with the continuity of legal proceedings taken by the company to confirm the fact that such service is not subject to sales tax.

Issuance of consolidated interim financial statements

- These consolidated interim financial statements were approved by the company's BOD for issuance on June 5, 2018.

2. Basis For The Preparation of The consolidated interim financial statements

2.1 Statement of compliance

These consolidated financial statement has been prepared in accordance with Egyptian Accounting Standard and in light of Egyptian laws and regulations.

2.2 Basis of measurement

These consolidated interim financial statements are prepared on the historical cost convention, except for assets and liabilities which are measured at fair value.

During 2016, the Group's management adopted the special accounting treatment stated in annex (A) of the modified Egyptian Accounting Standard no. (13) "The Effects of Changes in Foreign Exchange Rates", the cost and accumulated depreciation of some fixed assets categories are modified using modification factors which are stated in the above-mentioned annex, as described in details in note no. (39-2).

2.3 Functional and presentation currency

These consolidated interim financial statements are presented in thousands of Egyptian pound.

2.4 Use of estimates and judgments

The preparation of the consolidated interim financial statements in conformity with Egyptian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses and the actual results may differ from these estimates.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the current circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a going basis. Any differences to accounting estimates are recognized in the period in which the estimate is revised if these differences affects the period of the revision and future periods then these differences are recognized in the period of the revision and future periods.

And the following represents the most significant items in which assumption and professional judgment has been made:

- Impairment loss on assets.
- Recognition of deferred tax assets.
- Contingencies and Provisions.
- Operational useful life of fixed assets.

2.5 Fair value measurement

The fair value of financial instruments is determined based on the market value of financial instruments or similar financial instruments at the date of the consolidated interim financial statements without deducting any estimated future costs of sale. Financial assets values are determined at current prices for the purchase of those assets, while determining the value of financial liabilities at the current prices, which would settle those commitments.

In the absence of an active market to determine the fair value of financial instruments, the fair value is estimated using various valuation techniques, taking into account recent transactions prices, guided by the current fair value of other substantially similar instruments - discounted cash flow method - or any other methods to produce reliable results.

When using the discounted cash flow method as a method of evaluation, future cash flows are estimated based on the best estimate of the management. Discount rate used is determined in the light of the prevailing market price at the date of the consolidated interim financial statements for financial instruments similar in nature and terms.

2.6 Basis of consolidation

- The consolidated interim financial statements include assets, liabilities and result of operations of Ezz Steel Company (Holding Company) and all subsidiary companies which are controlled by the Holding Company, the Company controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has ability to affect those returns through its power over the investee.
- All inter-Company balances, transactions and unrealized profits were eliminated.

And on June 12, 2010, the committee issued its resolution responding positively to the motions of the company with respect to the cancellation of the financial resources development duty on the exempted movable tax base while the other tax bases shall remain exempted according to the resolution of the Internal Committee issued for the disputed years 2000 – 2004. The due tax was paid in full and form no. (9) Paid attachment was obtained; accordingly the dispute was amicably settled and became final and decisive according to the provisions of law.

The company was notified of the tax – claim amounts for the years 2000/2004 according to forms no. (3), and (4), received from large taxpayers' Center of the Tax Authority on February 17, 2011 with an amount of LE 219 million. These forms represent the amount of the tax imposed on the flat steel project which had previously enjoyed a tax exemption for the same year. Despite the fact that the company's tax and legal positions are stable due to the issuance of the Appeal Committee resolution which supported the company and which was approved by the Authority and was not objected thereto, accordingly it became legally indisputable. Subsequently, the Tax Authority cannot dispute with the company about these years once again. The company filed a lawsuit to discharge from any indebtedness before the court in order to safeguard the company's rights. On February 17, 2011, The Tax Authority has held the accounts of Al Ezz El Dekheila for Steel - Alexandria (EZDK) kept at banks with an amount of LE 219 million according to the tax assessment made based on the fact that the profits of the flat steel projects for the years 2000/2004 are subjected to taxation. Al Ezz El Dekheila for Steel - Alexandria (EZDK) Company reached an agreement with the Tax Authority to cancel the administrative attachment imposed on the company as a result of the above mentioned dispute against paying LE 50 million during September and October 2011, and settle the remaining tax claims amounting to LE 169.3 Million on 24 installments the first installment amounting to LE 8.3 million due in November 2011, while the remaining due amount shall be paid on 23 monthly installments at LE 7 million each, in addition to the delay interest on the amount paid on installments. The paid amounts is LE 254.2 million, including delay interest amounting to LE 35 million. The Company's opinion that this procedure shall not change the legal & tax position of the company as it reserves its right to reimburse what has been paid immediately upon the issuance of a court ruling in favor of the company pertaining to lawsuit no. 405 of 2011. Which recorded with no. 963 year 2012 tax total Alexandria, which was deliberated during sessions. The Primary Court of Alexandria issued its ruling with lack of jurisdiction and transferred the case to Alexandria's Administrative Court and the court has set a session at January 2, 2018 which ruled to bring back the case to the court of first degree to rule in its subject and the court didn't set a session for it, yet.

- The company's tax inspection was made for years 2005/2006 and the company was notified of form no. (19) – taxes on February 21, 2011. The tax differences amounted to LE 94.56 Million in addition to delay interests, and the company appealed against these forms on the legal due dates, as the year 2005 represent the 5th year of the flat steel project which is applicable to the above mentioned exemption which is legally immune, the dispute for those years was referred to the Appeal Committee.
- The Appeal Committee issued its decision to subject the 5th year to tax in violation of its previous decision related to the years 2000/2004 even though the tax exemption can't be divided or legally canceled, hence the company filed the lawsuit no. 245 for the year 2014 tax - Alexandria Court for the purpose of accepting the appeal in form and the plea to the nullification of the Appeal Committee's decision and its subsequence effects, on January 27, 2016 court session, The Primary Court Of Alexandria issued its ruling with lack of jurisdiction and transferred the case to Alexandria's Administrative Court and the court didn't set a session for it, yet.
- The Tax Authority demanded that the company pays an amount of LE 124 million as a delay penalty based on the article no. 111 of the law no. 91/2005, the company appealed on that demand by filing a warrant for the chief of the Tax Authority and his legal advisor, the company paid all these tax differences during the period from June till October 2014 with reserving that the company recovers all the amounts that were paid if a judicial ruling is issued in its favor.

34.3.4 Sales Tax on imports of iron oxide ore

- The Egyptian Customs Authority claimed the amount of LE 1.9 Billion that represents the value of sales tax on imported iron oxide ore and the claim was made based on retroactive for the period from the first of January 2008 till December 31, 2012. The company has submitted a memo to the Minister of Finance to the effect that iron oxide ore imports should not be subjected to taxation as philosophy of the law of sales tax made the industrial product an intermediate link in tax collection, where the tax previously paid is deducted from tax collected when selling the product and whereas the company during previous periods was remitting supplying everything that has been collected upon selling the product, without any deduction and the company has no will when customs release was in place on this product.

Hence, the company should not be charged by any amounts because it was not a reason for non-collection of tax nor in how the release of this raw material. The company's management and its tax advisor are of the opinion that the Customs has no right in the amounts claimed from the company because the company is applying the core of the law in addition, the company is an intermediate link with respect to tax collection and remitting it to the Tax Authority on legal due dates and there are no grounds to claim tax differences.

36. THE LITIGATION STATUS

36.1 Al-Ezz Rolling Mills Company & Al-Ezz Flat Steel Company– Subsidiaries Companies

Al-Ezz Rolling Mills Company and Al-Ezz Flat Steel Company (subsidiaries of Al Ezz Steel Company) obtained two licenses from the Industrial Development Authority to produce sponge iron and billet included within the group of the licenses the Authority has given to the qualified companies in Egypt for free. However, Al-Ezz Rolling Mills Company started the establishment of a factory for the production of sponge iron, while Al-Ezz Flat Steel Company did not start any projects to make use of the license.

The said subject was referred to the criminal court to claim the payment of fees related to these licenses in addition to any penalties that may be imposed by the court. On September 15, 2011 the court issued a ruling whose pronouncement included imposing penalties on the former chairman of Ezz Steel Company and the former chairman of the Industrial Development Authority jointly with an amount of LE 660 million, and the withdrawal of the two licenses granted to each of Al-Ezz Rolling Mills Company and Al-Ezz Flat Steel Company. The company's management has taken procedures to revoke the ruling with all its consequences resulting there from.

During the court session held on December 20, 2012, the court of cassation issued its ruling to the effect of cassating the appealed against ruling and referring the lawsuit to another circuit for consideration, which means revoking the previous ruling. A court session was set on April 6, 2013 to consider the lawsuit before the court to which it was referred to and postponed to December 5, 2013, then the said case was adjourned to overturned the judgment issued by the lower court due to the fact that the administration of justice in this regard. Accordingly, the court case was deliberated in several sessions before the retrial court circuit.

The said lawsuit was settled by issuing a ruling to the nonsuit due to conciliation on March 8, 2018.

36.2 Al Ezz Dekheila Steel Company Alexandria – A Subsidiary Company

36.2.1 Workers Lawsuits Regarding Profits Differences :

Some workers whose services for the company came to an end filed 73 lawsuits claiming the calculation of the profits differences for years from 2004 till 2010 based on the gross salary at a percentage of 10% of the profits and they laid down the grounds of their lawsuits based on the stipulation of the first article of labor law no. (12) For the year 2003 and the stipulation of article no. (41) of the Joint-Stock Companies Law no. 159 of 1981.

The rulings were issued in regard to (71) lawsuits ranging between refusal and dropping as the company complied with the core of the law when calculating the employees' share in profits according to the authority vested thereto by virtue of the stipulation of article no. (12) of the Arab and Foreign Capital Investment Law no. (43)/1974 and article no. (52) of the company's Articles of Association issued by virtue of decree no. (90)/1981 which authorize the board of directors and the General Assembly of the company to determine the percentage, the criterion and the manner of the profits appropriation.

However, the Court of Appeal confirmed the issued rulings of refusal or dropping in 14 lawsuits, and there are (55) lawsuits that have not been appealed against and the rulings thereof acquired the opposability of res judicata due to the lapse of the date of appeal thereof, while the remaining two lawsuits were canceled, not renewed and were considered legally as there were not existed.

Some workers of Al Ezz Dekheila Steel Company Alexandria filed 6 lawsuits concerning the financial differences of the social allowances for the years from 1996 until 2010, in which the company insisted on adhering to the agreement that was concluded between the company and the workers on July 7, 2011 which resulted in the fact that the company paid the said financial differences of the social allowances and the court lapsed the litigation and there is still on litigation remaining under deliberation.

The company's management and its legal advisor are of the opinion that the company complied with the proper core of law in regard to the profits appropriation for the employees thereof according to the company's articles of association without prejudice to the rights of any of the employees thereof.

36.2.2 Lawsuits before Court Concerning The Trespass on The Company's lands:

Some individuals and companies trespassed a part of the company's lands with an area of approximately 17 feddans purchased from the State Property Protection Authority whose total area is approximately 108 feddans that were allocated to the company and received thereby according to the receipt report dated December 13, 1998 issued by virtue of decree no. (80) of 1993 of Alexandria Governor, and the company paid the price of such land in full according to the agreement concluded between the company and the State Property Protection Authority on June 19, 2008. The trespass was erased at September 12, 2017 and the company received the land in accordance with the delivery report from the state property protection authority and ElAgami district after erasing trespass from main road and legal actions are in process to finalize the land register.

37. OTHER TOPICS

37.1 EZDK Steel UK limited Company

On July 11, 2011, a ruling was issued by the judicial bodies in the United Kingdom to subject EZDK Steel UK LTD, a subsidiary company, to be under the managerial control of BDO LLP England Institute in the United Kingdom due to its insolvency and based on the fact that the shareholders reached an agreement in regard to the procedures necessary to be taken to the effect of the company's liquidation.

However, the company still under the managerial control that Institute till the consolidated interim financial statements date (the investment cost reached the amount of LE 510 with a participation percentage of 50% of the company's capital).

37.2 Alexandria Port Authority

- On June 19, 2011, Alexandria Port Authority issued an administrative attachment order with respect to the accounts of Al Ezz El Dekheila for Steel - Alexandria (EZDK) kept at some banks, where the value of the attachment order amounted to LE 181.2 million (without specific particulars regarding the breakdown of this amount), and the procedures of the said attachment came into force on October 26, 2011. The amounts kept at the banks under attachment reached the amount of LE 66 million as the amount in return for the claims made by the Authority pertaining to the sales tax and delay interest imposed on the materials stevedoring category (the core of a legal dispute that has not been settled yet), and being the subject matter of lawsuit no. 797 of 2010 filed by Alexandria Port Authority against sales Tax Authority and Al Ezz El Dekheila for Steel - Alexandria (EZDK) in order to guarantee receiving the amounts pertaining to the judgments that might be issued against Alexandria Port Authority with respect to the sales tax assessment as the said ruling of that lawsuit was scheduled on September 17, 2012. And a judgment was issued to the effect of dismissing the case and the company an appeal against the lawsuit no. 747 for 2012, and the session is postponed to June 24, 2013. And adjournment of the session has taken place until the constitutional action no.54 for the judicial year no.35 the lawsuit deliberation was settled.
- The commissioner decided to set a date for submitting the report and the said report has not been submitted, yet.
- The Sales Tax Authority claimed the company to pay the principal tax amounting to LE 104 million in addition to tax amounting to LE 127.5 million till June 28, 2012 in return for usufruct of the equipment of mining ores dock related to the handling of ores in El Dekheila Port.

On October 3, 2012, the company paid the principal tax amounting to LE 104 million along with its right to maintain a reservation on the settlement until the Sales Tax Authority ceases all the actions taken against Alexandria Port Authority which in its turn shall cease all the actions taken against the company including the lift of attachment on the company's balances at the various banks. The sales tax authority is of the opinion the necessity of payment the additional tax in order to cease the mentioned procedures.

The company's management paid an amount of LE 127.5 million under the account of the additional tax claimed by virtue of post-dated checks starting from December 31, 2012 for one year. Accordingly, Alexandria Port Authority notified the banks to lift the administrative attachment imposed on the Company's balances at the banks in favor of the Port Authority.

Based on the opinion of its tax advisor, the company's management is of the opinion that Alexandria port Authority is not entitled to claim the Company to pay sales tax in return for usufruct of the equipment of mining ores dock related to the handling of ores in El - Dekheila Port, the occupation of the yards allocated for this purpose and carrying out the works of operation and maintenance necessary for such equipment as its not subjected for sales tax, the payment of such amount or amounts by the company to Alexandria Port Authority, either at the present time or in the future, as a tax in return for the same service, does not mean its approval of subjecting the service to taxation along with the continuity of legal proceedings taken by the company to confirm the fact that such service is not subjected to sales tax.

The company has also established Case no. 1609 of year 2014 against both the Port Authority and the Tax Authority requesting the recovery the collected amount from the company under the name of the sales tax for the period from 15/02/2003 till December 2013 in the amount of LE 249 525 k, A session date to be considered on November 27, 2014 and ruling was issued to the effect of the lack of jurisdiction and referring the lawsuit to the Administrative Court, However, a session for considering the said appeal has not been determined up to this date.

38. Subsequent Events

The Ordinary General Assembly of the company which have been held on April 30, 2018 approved the use of an amount of LE 934 851 638 from the additional paid in capital reserve balance to cover the balance of retained losses as at December 31, 2017.

Foreign currency differences arising on the translation are recognized in the consolidated statement of income at the financial position date in consolidated statement of income.

Financial statements of Al Ezz Flat Steel (EFS)

EFS maintains its accounting records in US Dollar. For the purpose of preparation of the consolidated interim financial statements, the assets and liabilities are translated into Egyptian Pound at the closing exchange rate ruling at the financial statements date. The income statement items are translated into Egyptian Pound at the average exchange rate for the year. Equity items are translated by historical rate and Exchange differences arising from the translation are recorded in the shareholders equity.

39.2 *Fixed assets and depreciation*

Fixed assets are stated at historical cost less accumulated depreciation and accumulated impairment losses. Depreciation - except rolling rings - is charged to the consolidated statement of income on straight-line basis over the estimated useful lives of assets. The management of the company regularly reconsiders the remaining useful lives of the fixed assets in order to determine whether they match the previously estimated useful lives and if there is a significant difference, the assets depreciation will be calculated in accordance with the remaining estimated useful life.

During 2016 modified cost model was adopted by the group, which the cost and accumulated depreciation for some categories of fixed assets (Machinery and equipment, Vehicles, Furniture and office equipment, Tools and supplies) are modified using modification factors stated in annex (A) of EAS no. (13). The increase of net fixed assets which are qualified to modification, were recognized in other comprehensive income items and was presented as a separate item in equity under the name of "modification surplus of fixed assets". The realized portion of modification surplus of fixed assets is transferred to retained earnings or losses in case of disposal or abandonment of the asset which qualified for modification or usage (depreciation difference resulting from the adaption of the special accounting treatment).

The estimated useful life for each type of assets is as follows:

<u>Asset</u>	<u>Estimated useful life</u> <u>Years</u>
<u>Buildings</u>	
- Buildings	25 - 50
- Other buildings	8
<u>Machinery and equipment</u>	
- Machinery and equipment	5 - 25
- Rolling rings (machinery and equipment)	According to actual use (ERM 5-6 based on 3 shifts)
<u>Vehicles</u>	2 - 5
<u>Furniture and office equipment</u>	
- Furniture and office equipment	3 - 10
- Central air conditioning and fixtures	8
<u>Tools and appliances</u>	4 - 5
<u>Improvements on leased buildings</u>	The lower of lease term or assets' useful lives

Profits or losses resulting from fixed assets disposal are charged to the consolidated statement of income.

39.3 Cost subsequent to acquisition

The replacement cost of an asset component is recognized in the asset cost after the elimination of the cost of this component when such cost is incurred by the company and in case it is probable that future economic benefits shall inflow to the group as a result of the replacement of this component conditional on the ability to measure its cost with a high level of accuracy. However, the other costs are to be recognized in the consolidated statement of income as an expense when incurred.

39.4 Projects under construction

Projects under construction are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Projects under construction are transferred to fixed assets at its cost when they are completed and are ready for their intended use.

39.5 Other assets

- Other assets are licenses cost which are capable of generating future economic benefits.
- Other assets are stated at purchased cost including any expenses that are directly attributable to preparing the asset for its intended use, net of accumulated amortization and impairment losses.

39.6 Investments in associates

Investments in associates are accounted for using the equity method and are recognized initially at cost. The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses, if any. The consolidated interim financial statements include the Group's share of income, and expenses of equity accounted investee, after adjustments to align accounting policies with those of the Group, from the date that significant influence commences to the date that significant influence ceases. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

In case of the excess in the cost of acquisition over the company share in net fair value of the assets, liabilities and contingent liabilities as well in associates on the date of acquisition, the goodwill is recognized as a part of investment book value, thus it will be subjected to the impairment loss on the investment.

39.7 Available-for-sale investments

Available-for-sale investments are initially measured at fair value and as of the consolidated interim financial statements date, the change in the fair value whether gain or loss is recognized directly in equity, except for impairment losses which are transferred to profit or loss. When an investment is derecognized, the cumulative gain or loss in equity is transferred to profit or loss.

The fair value for available-for-sale investments is identified based on the quoted price of the exchange market in an active market at the consolidated financial position date, except for investments which are not quoted in a stock exchange in an active market, in this case they are measured at cost net of impairment loss.

39.8 Investments in treasury bills

Investments in treasury bills are stated in the financial statements are initially measured at fair value and subsequently measured by depreciated cost, the difference between acquiring cost and the realizable value during the period is amortized from acquiring date to maturity date using actual interest rate.

39.9 Goodwill

Goodwill represents the excess of the acquisition cost over the fair value of the identifiable assets acquired at the date of acquisition. Goodwill is tested for impairment at consolidated financial position date. If events or changes in circumstances indicate that the goodwill might be impaired, impairment loss "If any" is charged to the consolidated statement of income for the period.

39.10 Inventory

Inventory is valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Cost is determined as follows:

- Raw materials: is valued at its cost up to bringing them to warehouses, and the outgoing is evaluated using the first in first out method.
- Spare parts, materials, and supplies: are valued at cost up to bringing them to warehouses, and the outgoing is evaluated using the weighted average method.
- Work in process: according to the actual manufacturing cost which includes direct materials and labor cost in addition to share of indirect manufacturing cost incurred until the last production stage reached.
- Finished products: according to the actual manufacturing cost.

39.11 Trade and notes receivables and debtors

Trade and notes receivable and debtors are initially stated at their fair value and subsequently measured by depreciated cost using the effective interest rate and reduced by estimated impairment losses from its value.

39.12 Cash and cash equivalents

Cash and cash equivalents in the statement of cash flows comprise cash balances, banks current accounts, time deposits, market money fund bills and treasury bills which do not exceed three months and banks overdrafts that are repayable on demand and form an integral part of the Group's cash management preparing are included as a component of cash equivalents. The consolidated statement of cash flows is prepared and presented according to indirect method.

39.13 Trade and notes payable and creditors

Trade and notes payable and creditors are primary stated at fair value and subsequently measured by depreciated cost using the actual interest rate.

39.14 Impairment loss on assets

A. Financial assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognized in profit or loss. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred to profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in consolidated income statement. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

B. Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups. Impairment losses are recognized in the consolidated statement of income.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell.

Impairment losses recognized in prior periods are assessed at consolidated interim financial statements date for any indications that the loss has decreased or no longer exists. An impairment loss is reviewed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

39.15 Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost on an effective interest basis with any difference between cost and redemption value being recognized in the consolidated statement of income.

Borrowing cost of financing fixed assets are capitalized to finance qualified fixed assets during the construction period till the asset is reachable for use from the economical view.

39.16 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of a past event and it is probable that a flow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. The provisions balances are reviewed on a going basis at the financial position date to disclose the best estimate on the current period.

39.17 Share capital

Repurchase of share capital

Upon the repurchase of issued capital shares of the company (whether direct way or by using one of its subsidiaries), it is recognized with the amount paid in return for the repurchase, process which includes all direct costs and all costs related to repurchasing, as a reduction in owners' equity, and it shall be classified as treasury stock deducted from the total owners' equity side.

39.18 Revenues

a) Sales revenues

Sales revenues are recognized when the risks and benefits of goods are transferred to the purchaser at delivering the goods. The sales is not recognized in case of non-assurance of the collection of these revenue or inability to determine any related costs or any expected sales return or the continues of the management relation with the sold product.

b) Dividends

Dividends income is recognized in the consolidated income statement on the date where the company has the right to receive investees' dividends occurred after the date of acquisition.

c) Interest income

39.19 Capital lease contracts

The due rental value, expenses of maintenance and repair of assets leased based on capital lease contracts in accordance with the provisions of the leasing no. 95 for the year 1995 as an expense in the statement of income for the period according to the accrual basis, and at end of the contract and if the Company desired to purchase the assets leased, it will be recognized as fixed assets with the amount paid to exercise the right to purchase those assets stated in the contract and to be depreciated over the estimated useful life remaining to them.

39.20 Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

39.21 Income Tax

Income tax on the profit or loss for the period comprises current income tax and deferred tax. Income tax is recognized in the consolidated income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income, using tax rates enacted or substantially enacted at the consolidated financial position date.

Deferred tax is provided using the financial position liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the consolidated financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized during the upcoming periods.

39.22 Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

- * Credit risk
- * Liquidity risk
- * Market risk

This note presents information about the Group's exposure to each of the above risks, the Group objectives, policies and processes for measuring and managing risks, and the Group management of capital. Further quantitative disclosures are included throughout these consolidated interim financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group risk management framework.

The Group risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

39.22.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss.

This risk is mainly resulting from the Group's trade and other debtors.

Trade receivable & other debtors

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk has less of an influence on credit risk.

Most of Group's revenue is represented in sales transaction with many customers with close values for each customer, hence, there is no concentration of credit risk on specific customers.

Cash and cash equivalents

Credit risk relating to cash and cash equivalents - except cash on hand - and financial deposits arises from the risk that the counterparty becomes insolvent and accordingly is unable to return the deposited funds. To mitigate this risk, whenever possible, the Group conducts transactions and deposits funds with financial institutions with high investment grade.

39.22.2 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that the sufficient cash on demand to meet expected operational expenses for a suitable period, including the service of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

39.22.3 Market risk

Market risk is the risk that changes in market prices, such as foreign currency exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Group is exposed to currency risk on transactions that are denominated in a currency other than the respective functional currencies of the Group, primarily the U.S. Dollars (USD) and Euro. In respect of monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level through purchase or sale of the foreign currencies with current prices when that is necessary to face un-balanced short term.

Interest rate risk

The Group is exposed to market risks as a result of changes in interest rates particularly in relation to borrowings. Borrowings issued at floating rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk.

The basic strategy of interest rate risk management is to balance the debt structure with an appropriate mix of fixed and floating interest rate borrowings based on the Group's perception of future interest rate movements.

Other market prices risk

This risk arises from changes in the price of available-for-sale investments held by the Group, the Group's management monitors the equity instruments in the investments' portfolio according to the market and objective valuation of the financial statements related to these shares. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors. The primary goal of the Group's investment strategy is to maximize investment returns and the management consults external advisors in this regard.

39.22.4 Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Boards of Directors monitors the return on capital, which the Group defines as net operating income divided by total shareholders' equity, the Board also monitors the level of dividends paid to shareholders. There were no changes in the Group's approach to capital management during the period. The Group is not subject to externally imposed capital requirements.
